OVERVIEW:

This two-and-a-half-hour webinar, which applies to acute care and critical access hospitals, will cover the basics for entering data into the National Healthcare Safety Network (NHSN). Topics include annual surveys; reporting plans; summary data; alerts; and events, including catheter associated urinary tract infection (CAUTI), LabID C. diff, and MRSA. This session will briefly cover the transition of COVID hospital data from HHS Teletracking to NHSN.

LEARNING OBJECTIVES:

- Prepare to navigate the NHSN website;
- Explore how the “Big Five” interact together (annual surveys, monthly reporting plan, summary data, alerts, and events);
- Identify the correct infection window period, date of event, present on admission, and repeat infection timeframe; and
- Apply the NHSN CAUTI definition.

MEET YOUR FACULTY:

Toni Foos, RN, BSN, CIC

**Manager of Infection Prevention and Clinical Quality
Colorado Hospital Association (CHA)**

At CHA, Toni Foos works to coordinate and manage clinical quality and infection prevention initiatives for more than 100 hospitals and health systems across the state. She oversees the Hospital Quality Improvement Contractor (HQIC) collaborative for 27 rural and critical access hospitals. In addition, she provides nationwide training on the NHSN's hospital-acquired infection (HAI) platform.

After working in corporate administrative and accounting roles for more than 20 years, Foos changed to nursing. She worked as a registered nurse (RN) in public health and infection prevention for about 10 years before joining CHA in 2016. She is board certified in infection control and prevention.

National Healthcare Safety Network Basic Training

REGISTER ONLINE: <https://lhaonline.org/Event.aspx?EventKey=M2349007>

DATE & TIME:

- Thursday, February 9, 2023 Time: 12:00 p.m. – 2:30 p.m. CT
